

# Agricultural Tires & Services

Farm Tires & Service Canada's Producers  
Trust

**Market-leading tires & service from Canada's agriculture expert**

We understand the importance of finding a tire and service provider you can rely on. Kal Tire's highly skilled team are trained to service agriculture and speciality tires, as well as bringing deep product and industry knowledge to devise a tire and service program that will reduce your downtime and improve profitability with lasting performance. We take time to understand your operations and needs to recommend the best product for your situation.

## On-Site Tire Inspection & Service

You're not left alone when you choose Kal Tire. Our team of experts will come to your site to provide inspections and service to ensure you are getting the most out of your equipment. We run tire pressure checks so you can trust that your tires are running at optimal pressure for your application and load. In select locations we can also offer on-site weighing\*.

## Multi-Brand Dealer

Whether you need tires or tracks, and whether it is for seeders and sprayers or combine harvesters, we have a wide range of products available to fit your needs. We stock the latest IF & VF technology tires, so you can count on us to provide the best array of options available. Plus, with our own warehousing and transportation facilities, we get the products to you fast, where & when you need them.
